

VEHICLE SAFETY RECALL CAMPAIGN IN JAPAN

Domestic Vehicles

CAMPAIGN No.	4943	DATE	Apr.22, 2021
MANUFACTURER	SUZUKI MOTOR CORPORATION		
DESCRIPTION OF DEFECT	<p>Due to the improper brake control program for the ACC (Adaptive Cruise Control) system in the ESC(Electric Stability Control) module, ESC does not activate the automatic brake control when the vehicle is moving closer to the other vehicle ahead and the vehicle speed need to be reduced.</p> <p>The above may result in a risk of collision with the vehicle ahead in the worst case.</p>
