

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic ~~(~~ Import Vehicles)

CAMPAIGN No.	Gai-3367	DATE	2022/3/31
MANUFACTURE	Mercedes-Benz AG (Japanese Importer : Mercedes-Benz Japan Co., Ltd.)		
DESCRIPTION OF DEFECT	<p>On certain right-hand drive C-Class vehicles (205 platform) the routing of an electric cable in the engine compartment might not meet specifications.</p> <p>The cable of a 12V power supply line might contact with a ground connection cable lug and chafe on it due to vibrations during vehicle operation. In consequence, the insulation of the power supply line might be damaged, potentially resulting in a short circuit between 12V power supply and ground.</p> <p>Due to the high electrical currents potentially flowing in case of a short circuit, a risk of fire cannot be excluded completely.</p>
