

## VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic ~~(~~ Import Vehicles )

CAMPAIGN No.	Gai-3371	DATE	2022/3/31
MANUFACTURE	Mercedes-Benz AG (Japanese Importer : Mercedes-Benz Japan Co., Ltd. )		
DESCRIPTION OF DEFECT	On certain A-Class (177 platform), EQA (243 platform) and GLA (247 platform) vehicles, the bolting on the brake caliper housing might not meet torque specifications. This might affect up to one brake caliper housing per vehicle. Such affected bolting might loosen. In this case, the braking performance would be reduced and the loss of components could not be completely ruled out. This would increase the risk of a crash, possibly also for the following traffic.
