

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Import Vehicles

CAMPAIN No.	Gai – 3356	DATE	7th March, 2022
MANUFACTURER	Dr. Ing. h.c. F. Porsche AG (Japanese Importer: Porsche Japan KK)		
DESCRIPTION OF DEFECT	<p>Within the analysis of data regarding the implementation of the recall campaign AMA9, it was determined that in some cases a alteration of the suspension geometry on the rear axle has occurred. Due to the incorrect suspension alignment, this can lead to tire wear on the rear axle at higher mileage. As a result, the high-speed stability at high vehicle speeds cannot be ensured.</p> <p>To rule out the possibility of premature tire wear, the suspension alignment on the affected vehicles must be checked and corrected if necessary.</p>
