

VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Import Vehicles

CAMPAIGN No.	GAI-3406	DATE	May 26, 2022
MANUFACTURER	Audi (Japanese Importer: VOLKSWAGEN Group Japan K.K.)		
DESCRIPTION OF DEFECT	The level of oil in the gearbox may be insufficient. Due to insufficient oil in the gearbox, an interruption in power flow in the drive train due to clutch slip cannot be ruled out. A message may be shown in the instrument cluster in this context. During extreme driving manoeuvres (e.g. if the vehicle is driven on a racetrack), oil foam may form and could escape from the gearbox breather. It cannot be ruled out that this could result in a fire.
