

## VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic  Import Vehicles

CAMPAIGN No.	Gai-3469	DATE	2022/9/14
MANUFACTURE	Mercedes-Benz AG (Japanese Importer : Mercedes-Benz Japan Co., Ltd. )		
DESCRIPTION OF DEFECT	<p>On certain GLE (167 platform), C-Class (205 platform), E-Class (213 platform) and CLS (257 platform) vehicles with Diesel engine, the coolant pump, which is controlled by vacuum, might have a leakage between the vacuum system and the coolant circuit.</p> <p>In this case, ingress of coolant into the vacuum system might damage various components. Should electrical switch valves come in contact with coolant, amongst other things the temperature of the respective parts might in isolated cases increase over time due to an electrochemical reaction. Subsequently, a risk of fire cannot be fully excluded.</p>
