

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic ~~Import Vehicles~~

CAMPAIGN No.	Gai-3471	DATE	2022/9/14
MANUFACTURE	Mercedes-Benz AG (Japanese Importer : Mercedes-Benz Japan Co., Ltd.)		
DESCRIPTION OF DEFECT	On certain CLA (118 platform), A-Class (177 platform) and GLB (247 platform) vehicles with gasoline engine M260, the fuel supply line may come in contact with the air intake pipe. In this case, the fuel supply line could chafe, whereby a leakage of fuel cannot not be excluded. Subsequently, local legal regulations might not be met. Due to the installation situation and the expected, small amount of leaked fuel, a risk of fire can be excluded.
