

VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic/Import Vehicles

CAMPAIGN No.	Gai-3480	DATE	13. 10. 2022
MANUFACTURER	Ferrari SpA (Japanese Importer: Ferrari Japan K.K.)		
DESCRIPTION OF DEFECT	<p>In the brake system, The brake fluid may leak into the brake booster from the hydraulic seal which is fitted in close proximity to the brake booster and the brake primary circuit remains empty. When this happens, the brake capability is limited to the secondary circuit.</p> <p>In that condition, if the brake reservoir cap is tightened by over torque, the ventilation of the brake reservoir cap may be reduced.</p> <p>There is a possibility of the brake fluid of the secondary circuit returns to the brake reservoir by the vacuum, which is generated inside of the brake reservoir. And then, in worst case, the brakes will not work properly.</p>		

TYPE	COMMERCIAL NAME	MODEL YEAR RECALLED	NUMBER OF VEHICLE
GH-F612	「612 Scaglietti , 612 Scaglietti F1」	2004-2007	139
