

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Import Vehicles

CAMPAIGN No.	Gai-3531	DATE	2022/12/13
MANUFACTURE	Mercedes-Benz AG (Japanese Importer : Mercedes-Benz Japan Co., Ltd.)		
DESCRIPTION OF DEFECT	<p>On certain C-Class, E-Class and GLC vehicles (205, 213, 238, 253 platforms) with air suspension, the pressure release valve of the compressor might corrode and subsequently become stuck.</p> <p>In this case, it might not be possible to adjust the vehicle level as intended and the vehicle level could become stuck in position or might lower unintentionally.</p> <p>This condition would neither have an influence on the drivability of the vehicle, as propulsion, steering and brakes would remain fully operational, nor would the driving stability be impaired. Furthermore, the separation of parts or damage to the tires is excluded.</p> <p>However, legal requirements in certain countries relating to the function of the air suspension system and ground clearance might not be met in this situation.</p>
