

## VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic  Import Vehicles

CAMPAIGN No.	Gai-3561	DATE	2023/2/9
MANUFACTURE	Mercedes-Benz AG (Japanese Importer : Mercedes-Benz Japan Co., Ltd. )		
DESCRIPTION OF DEFECT	On certain GLE/ML (166 platform) and GLE Coupe (292 platform) vehicles, water might permeate into the rear area of the vehicle and, over time, accumulate in the spare wheel well. In certain driving situations, accumulated water could briefly come into contact with the fuel pump control unit. Consequently, the fuel supply to the engine could be impaired, which would lead to a loss of propulsion without pre-warning. In such circumstances, the risk of a crash would be increased. Local legal requirements might not be met.
