

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Import Vehicles

CAMPAIGN No.	Gai-3659	DATE	2023/7/27
MANUFACTURE	Mercedes-Benz AG (Japanese Importer : Mercedes-Benz Japan Co., Ltd.)		
DESCRIPTION OF DEFECT	On certain S-Class (222 platform) and S-Class coupé/cabriolet (217 platform) vehicles the fuel line connection of the low pressure fuel line might not meet specifications. In this case, accelerated ageing over time in the area of the fuel line connection might occur and thus impair the tightness of the connection. Subsequently, single drops of fuel might leak in the engine compartment, leading to clearly perceptible fuel smell. An accumulation of fuel and therefore a risk of fire can be excluded. However, local legal emission limits regarding fuel evaporation might not be met.
