

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic ~~Import Vehicles~~

| | | | |
|-----------------------|--|------|-----------|
| CAMPAIGN No. | Gai-3686 | DATE | 2023/9/28 |
| MANUFACTURE | Mercedes-Benz AG (Japanese Importer : Mercedes-Benz Japan Co., Ltd.) | | |
| DESCRIPTION OF DEFECT | On certain C-Class (206 platform) vehicles with 4-wheel-drive, the length of the transmission wiring harness might not meet specifications. In this case, the transmission wiring harness could chafe on the front drive shaft. Over time, this could damage the wiring harness, which could potentially result in a loss of vehicle propulsion. This might increase the risk of a crash. Additionally, an influence on the exhaust emissions and the electrical support cannot be ruled out. | | |

| TYPE | COMMERCIAL NAME | MODEL YEAR RECALLED | NUMBER OF VEHICLE |
|-------------|-------------------------|---------------------|-------------------|
| 5AA-206043C | C200 4MATIC | 2022 | 725 |
| | | 2023 | 28 |
| 4AA-206087C | Mercedes-AMG C43 4MATIC | | 224 |
