

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic ~~Import Vehicles~~

CAMPAIGN No.	Gai-3689	DATE	2023/9/28
MANUFACTURE	Mercedes-Benz AG (Japanese Importer : Mercedes-Benz Japan Co., Ltd.)		
DESCRIPTION OF DEFECT	On E-Class plug-in hybrid (213 platform) vehicles, the manufacturing of the wiring harness to the power electronics might not meet specifications. In this case, wires of the wiring harness might chafe on the underbody panelling and subsequently get damaged. Depending on the affected wire, different consequences might occur. Among others, the vehicle might lose its propulsion during driving without pre-warning, which would increase the risk of a crash.
