

## VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic ~~Import Vehicles~~

CAMPAIGN No.	Gai-3715	DATE	2023/11/01
MANUFACTURE	Mercedes-Benz AG (Japanese Importer : Mercedes-Benz Japan Co., Ltd. )		
DESCRIPTION OF DEFECT	On certain S-Class (223 platform) vehicles, a 12V-ground connection bolting in the trunk might not meet specifications. In this case, the bolting might loosen over time and the electric resistance of the connection might increase. Depending on the vehicle configuration, certain functions of the ESP might be deactivated or the temperature on this connection could increase due to the high electrical currents. This might increase the risk of a crash or fire.
