TIRE SAFETY RECALL CAMPAIGN IN JAPAN				
Domestic Tires				
CAMPAIGN No.	装 1 6	DATE	May. 29th, 2024	
MANUFACTURER	MAXXIS INTERNATIONAL (THAILAND) CO.,LTD.			
DESCRIPTION OF DEFECT	Tire (Possible air leakage from a sidewall) Due to improper handling in a certain manufacturing process, some of the subject tires may have been manufactured with a small pinhole in the upper sidewall of the tire. Tires containing a pinhole may slowly leak air, and if undetected or ignored, the continued loss of air may make impossible to drive. The tires of the subject Serial will be inspected, and the corresponding tires will be replaced with good ones.
