

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic ~~Import Vehicles~~

CAMPAIGN No.	Gai-3804	DATE	2024/5/16
MANUFACTURE	Mercedes-Benz AG ( Japanese Importer : Mercedes-Benz Japan G.K. )		
DESCRIPTION OF DEFECT	On certain V-Class (447 platform) vehicles, the monitoring of the air flow learning values of the hot film air mass sensor signal might not meet specifications. If the vehicle is operated in a certain driving profile (low engine speeds and constant low engine loads), the monitoring of the air flow learning values might erroneously detect an error, illuminate the malfunction indicator light and initiate the limp home mode, although no error is present. As a consequence, local legal requirements regarding exhaust emissions might not be met.		

TYPE	COMMERCIAL NAME	MODEL YEAR RECALLED	NUMBER OF VEHICLE
