

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic ~~Import Vehicles~~

| | | | |
|-----------------------|---|------|-----------|
| CAMPAIGN No. | Gai-3806 | DATE | 2024/5/16 |
| MANUFACTURE | Mercedes-Benz AG (Japanese Importer : Mercedes-Benz Japan G.K.) | | |
| DESCRIPTION OF DEFECT | <p>On certain E-Class (213 platform), CLS (257 platform) and AMG GT 4-door (290 platform) vehicles, the 48V ground connection in the engine compartment might not be secured correctly.</p> <p>In this case, the electric resistance of the connection might increase. In combination with the high electrical currents potentially flowing through this connection, the temperature might increase. As a consequence, a risk of fire cannot be ruled out completely. Should the above described issue lead to an impairment of the 48V system, the exhaust emissions might be increased.</p> | | |

| TYPE | COMMERCIAL NAME | MODEL YEAR RECALLED | NUMBER OF VEHICLE |
|-------------|----------------------------|---------------------|-------------------|
| 5AA-213059 | E450 4MATIC | 2021 | 4 |
| | | 2022 | 24 |
