Import Vehicles

CAMPAIGN No.	GAI-3967	DATE	March 19, 2025
MANUFACTURER	Audi (Japanese Importer: VOLKSWAGEN Group Japan K.K.)		
DESCRIPTION OF DEFECT	Due to insufficient software program design verification in the development of ABS control unit, the electronic parking brake may not function correctly under certain circumstances. The "N" gear position may not be shown in the instrument cluster when it should be displayed. As such, there is a risk of the vehicle roll away while parked. In addition, the "P" gear position is still displayed when the gear is "N", which fail to comply with the requirements of Safety Regulations for Road Vehicles.
