

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Import Vehicles

CAMPAIGN No.	GAI-3981	DATE	15th April 2025
MANUFACTURE	Triumph Motorcycles Limited (Japanese Importer : Triumph Motorcycles Japan K.K.)		
DESCRIPTION OF DEFECT	Under certain tire service conditions (e.g., low inflation pressure, heavy load, road conditions, mileage at almost the half of tire life, etc.), irregular tire wear may develop, which, over time, may result in breakage of the zero-degree reinforcement. If this condition is not promptly detected, it may lead to the partial detachment of the tread layer and/or a sudden loss of air pressure, which may result in loss of control and an increased risk of a crash.
