

VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Import Vehicles

| | | | |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|--------------|
| CAMPAIGN No. | GAI-4059 | DATE | 7, Aug, 2025 |
| MANUFACTURER | Automobili Lamborghini SpA (Japanese Importer: Volkswagen Group Japan KK) | | |
| DESCRIPTION OF DEFECT | In the affected vehicles, the spherical pin which supports the door gas springs and allows the door to open and remain in the open position may not have been assembled to manufacturing specification and could come loose. If the supporting pins detach, the doors may close under their own weight, posing a potential risk of injury to users. This issue could also make it difficult to open the doors, particularly from inside the vehicle, increasing the risk of injury in an emergency. | | |
