

CHILD RESTRAINT SYSTEM SAFETY RECALL CAMPAING IN JAPAN

Domestic / Import Items

CAMPAING No.	装 18	DATE	18-09- 2025
MANUFACTURER	CARMATE MFG. CO., LTD.		
DESCRIPTION OF DEFECT	There are some child restraint devices (child seats) that have a non-standard cushion installed due to manufacturing defects. As a result, the acceleration of the infant' s head may be excessive in the event of a side collision, which may result in failure to meet safety standards.
