

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic / Import Vehicles

CAMPAIGN No.	Gai-4089	DATE	2025/10/16
MANUFACTURE	Mercedes-Benz AG (Japanese Importer : Mercedes-Benz Japan G.K.)		
DESCRIPTION OF DEFECT	On certain C-Class (206 platform), GLC (254 platform) and EQE (295 platform) vehicles, the bolting of the steering coupling might not meet specifications. In this case, the mechanical connection between steering wheel and steering rack might loosen over time. This might lead to a loss of steerability of the vehicle, increasing the risk of a crash.
