|-----------------------|--|------|---------------------------|
| CAMPAIGN No.          | Gai-4125   | DATE | 4 <sup>th</sup> Dec, 2025 |
| MANUFACTURER          | BMW (Japanese Importer: BMW Group Japan Corp.)   |      |                           |
| DESCRIPTION OF DEFECT | Due to an assembly error, the threaded connection of the oil pump was not carried out correctly. If the threaded connection is not carried out correctly, the screw might come loose during operation. This may cause insufficient oil supply to the engine, followed by displaying a check control message and noise. Continuing to drive in this condition may possibly resulting in engine damage and in the worst case scenario, the engine may stall while driving. |      |                           |

| TYPE      | COMMERCIAL NAME  | MODEL YEAR RECALLED | NUMBER OF VEHICLE |
