

## VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Import Vehicles

CAMPAIGN No.	Gai-4153	DATE	2026/2/18
MANUFACTURE	Mercedes-Benz AG (Japanese Importer : Mercedes-Benz Japan G.K. )		
DESCRIPTION OF DEFECT	<p>On certain E-Class AMG (214 platform) vehicles with 4-wheel-drive, the routing of the transmission wiring harness might not meet specifications.</p> <p>In this case, the transmission wiring harness might chafe on the front drive shaft. This could damage the wiring harness, thus, potentially resulting in a loss of propulsion without prior warning. This might increase the risk of a crash. Additionally, due to a possible impairment of the boost-/recuperation function, an impact on exhaust emissions cannot be ruled out.</p>		

TYPE	COMMERCIAL NAME	MODEL YEAR RECALLED	NUMBER OF VEHICLE
4LA-214063C	Mercedes-AMG E53 HYBRID 4MATIC+	2024	105
4LA-214263C	Mercedes-AMG E53 HYBRID 4MATIC+ Stationwagon		17
