

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic ~~Import Vehicles~~

CAMPAIGN No.	Gai-4228	DATE	Aug 20, 2026
MANUFACTURE	General Motors Company (Japanese Importer : General Motors Japan Ltd.)		
DESCRIPTION OF DEFECT	General Motors has decided that certain 2025 model year Cadillac XT4, XT5, and XT6 vehicles fail to conform to Japanese Safety Regulations for Road Vehicles (Road Vehicle Act). These vehicles may have transmission pump bolts that do not maintain clamp load after thermal/vibration cycling which may result in a transmission fluid leak. This condition may cause visible leaks on the ground, harsh or delayed shifts, a MIL and/or warning message, potential reduced propulsion, and if those symptoms are ignored, the vehicle may eventually have a loss of propulsion.
