

VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Vehicles

CAMPAIGN No.	5174	DATE	June 30, 2022
MANUFACTURER	MITSUBISHI MOTORS CORPORATION		
DESCRIPTION OF DEFECT	<p>Due to an inappropriate control program in the navigation system,</p> <p>#1. When the navigation is started, information processing in the system may not complete and the navigation may keep rebooting.</p> <p>#2. The system recovery is not processed when the communication is discontinued due to some factors such as power fluctuation. In this case, the image from the camera may not appear on the display and a black screen may be displayed.</p> <p>In the situation above #1 and #2, the images from the camera to check the area in front and to the left side of a vehicle are not displayed on the liquid crystal screen, and this may not conform to Safety Regulations for Road Vehicles, Article 44 (Standard for Rear-View Mirror and similar devices).</p>
