

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Vehicles

CAMPAIGN No.	5243	DATE	November 17, 2022
MANUFACTURER	Mazda Motor Corporation		
DESCRIPTION OF DEFECT	On the oil pump chain of the engine, due to inappropriate procedure of installation in production process, the chain may not be installed on the correct position. Therefore, the chain may come off and the oil pump may be stopped. Because the oil pressure may decrease, the oil pressure warning light and engine warning light may illuminate, and the engine output may be limited. In the worst case, the engine may seize up.
