

# VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Vehicles

CAMPAIGN No.	5388	DATE	Oct. 24. 2023
MANUFACTURER	Trantechs, Ltd.		
DESCRIPTION OF DEFECT	<p>In the mounting brackets for the refrigerator condenser which is installed between the wheel base of large refrigerator trucks, cracks may occur in the fasteners due to insufficient design consideration. As a result cracks develop due to vibration during operation and the mounting brackets can break. In the worst case the refrigerator condenser may fall off, interfering with other traffic.</p>
