

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Vehicles

CAMPAIGN No.	5512	DATE	July 18, 2024
MANUFACTURER	SUZUKI MOTOR CORPORATION		
DESCRIPTION OF DEFECT	<p>Due to poor management of manufacturing process, some ignition coils were assembled with wrong high-tension cords. If the vehicle continues to be used, the high-tension cord may crack due to repeated bending, and in the worst case, the wire may break, causing the engine to stop, and the engine cannot be restarted.</p> <p>In addition, if a cracked high-tension cord gets water, the ignition output leaks and the vehicle speed sensor and the throttle position sensor are damaged, causing a vehicle speed display failure, an idling failure, or a starting failure.</p>		

TYPE	COMMERCIAL NAME	MODEL YEAR RECALLED	NUMBER OF VEHICLE
8BJ-DP12H	ADDRESS 125	2022 - 2023	1,244
