

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Vehicles

CAMPAIGN No.	5563	DATE	October 31, 2024
MANUFACTURER	Mazda Motor Corporation		
	On the combination meter, due to inappropriate condition settings when distributing the control program for the service in the market, there are cases where an incorrect control program was written during service. As a result, the warning to prompt steering wheel operation, which activates when the driver releases or loosely grips the steering wheel for a certain period while using the Cruising & Traffic Support function, may not be displayed on the combination meter.		

TYPE	COMMERCIAL NAME	MODEL YEAR RECALLED	NUMBER OF VEHICLE
