

VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Vehicles

| | | | |
|-----------------------|---|------|-------------------|
| CAMPAIGN No. | 5571 | DATE | October. 31. 2024 |
| MANUFACTURER | HONDA MOTOR CO., LTD. | | |
| DESCRIPTION OF DEFECT | As for the motor, due to the insufficient durability of the bolt securing the drive gear to the crankshaft, excessive stress may concentrate on the bolt at the time of aggressive acceleration, causing cracks on the bolt. For this reason, if it continues to be used, the bolt may break, causing the pulse rotor that detects the crankshaft revolution to come off, resulting in an engine failure because of the inappropriate performance of ignition and fuel injection. In the worst case, the broken pieces of the bolt may get caught in the gear, locking up the engine. | | |

| TYPE | COMMERCIAL NAME | MODEL YEAR RECALLED | NUMBER OF VEHICLE |
|----------|---------------------------------|---------------------|-------------------|
| 2BL-SC79 | 「Gold Wing」 「Gold Wing Tour」 | 2018～2021 | 2,041 |
| TOTAL | | | 2,041 |
