

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic / Import Vehicles

CAMPAIGN No.	5617	DATE	February 27, 2025	
MANUFACTURER	UD Trucks Corporation			
DESCRIPTION OF DEFECT	<p>With regards to trucks/tractors with electronically controlled steering (UDAS), due to inappropriate inspection system setting and work instructions to tighten bolt which fixes steering column and column shaft, some bolts may not be tightened with designated torque value. Thus, the bolt may become loose and noise may occur whilst steering operation. If the vehicle continues operation under these conditions, the fitting parts of the column shaft may be worn out and it slides upon static steering operation, and might affect to steering operability.</p>
