

VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Vehicles

CAMPAIGN No.	5694	DATE	Jul.16.2025
MANUFACTURER	TOYOTA		
DESCRIPTION OF DEFECT	In a combination meter, due to insufficient consideration of the programming, there is a possibility that a certain memory device on the circuit board may deteriorate prematurely if the operating time of the meter increases. If this occurs, the monitor of the meter will not be displayed after IG-ON, resulting in the speedometer and warning lights to be invisible.
