

# VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Vehicles

|                       |  |      |                  |
|-----------------------|--|------|------------------|
| CAMPAIGN No.          | 5743   | DATE | December 4, 2025 |
| MANUFACTURER          | DAIHATSU   |      |                  |
| DESCRIPTION OF DEFECT | In the manual sliding door, the design of the door stopper was inappropriate. Therefore, if the sliding door is opened forcefully, the door stopper may deform. Continuing to use it in this condition may cause the deformation to gradually increase, and in the worst case, the sliding door could get stuck beyond the door stopper, making it impossible to close the sliding door. |      |                  |
