| MANUFACTURER          | YAMAHA MOTOR CO., LTD.                                                                                                                                                                                                                                                                                                      |      |               |
| DESCRIPTION OF DEFECT | Regarding the on-board diagnostic (OBD) systems, due to insufficient consideration of the engine control unit program, the calculated load value when the engine is stopped is not displayed correctly on the diagnostic scan tool. Because of this, the products do not conform to the safety standards for road vehicles. |      |               |

| TYPE      | COMMERCIAL NAME | MODEL YEAR RECALLED | NUMBER OF VEHICLE |
|-----------|-----------------|---------------------|-------------------|
