Airworthiness Division, Civil Aviation Bureau

Bilateral Arrangement for Aviation Safety between JCAB and UKCAA is signed ～ At Farnborough Air Show ～

The JCAB has signed a Bilateral Arrangement (Working Arrangement and Technical Arrangement for Design and Products) with the UKCAA.

The aviation authorities of Japan (JCAB) and the UK (UKCAA) concluded a Working Arrangement on the Airworthiness of Design and Products in 2019.

On Thursday, 25 July 2024 (UK time), a new Working Arrangement was signed in order to further expand the scope of cooperation between the JCAB and the UKCAA. In the future, the scope of cooperation can be gradually expanded by developing Technical Arrangements for each area.

This arrangement is expected to reduce the burden on the aviation industries of both countries, promote the free distribution of civil aviation products, and strengthen cooperation between the UK and Japan regarding aviation safety.

Signatory:

Working Arrangement (New)

(Japan side) Shigenori Hiraoka, Director-General of JCAB
(Signed at Tokyo on 19 July 2024)

(UK side) Rob Bishton, Chief Executive Officer of the UKCAA

Technical Arrangement (Update)

(Japan side) Makoto Eguchi, Director, Airworthiness Standards and International Affairs Office, Airworthiness Division

(UK side) Garry Lathey, Chief Engineer of the UKCAA
