

On or after July 1, 2026

The International Tourist Tax will be increased to JPY 3,000

Revenue from the International Tourist Tax will be used in three areas.

① Creating a Stress-Free, Comfortable Travel Environment

Measures to Reduce Crowding (Park-and-Ride Pilot Program)

Measures to Prevent Inappropriate Behavior (Smart Waste Bin)

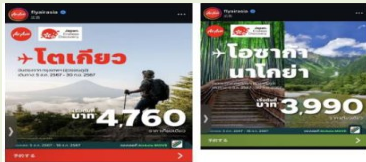

Facilitating Smooth Entry and Exit (Self-Service Bag Drop)

Facilitating Smooth Entry and Exit (Walk-Through Gate)

② Improving Access to Information for Japan's Unique Attractions

Joint Advertising with Airlines to Promote Attractions Across Japan

Horticultural Expo Information via JNTO's Dedicated Webpage
※JNTO/Japan National Tourism Organization
<https://www.jnto.go.jp/>

Exhibits at Consumer Travel Expos and Hosting Events for Local Consumers

③ Tourism resource development utilizing local cultural and natural assets

Streetscape Improvement through the Restoration of Historic Assets, Subsurface Installation of Utility Lines, and Beautification

Developing Exhibition Facilities for Culturally Significant Assets Associated with the Local Area

Maintenance and Improvement of Hiking Trails and Related Facilities

Public Exhibition of Important Cultural Properties (Former Mikasa Hotel)

Note: The above is an illustrative example under the FY2026 budget.

International Tourist Tax (System Overview)

For details of the system, please refer to the National Tax Agency (NTA) website.

Tax Rate

JPY 3,000 per departure from Japan (From July 1, 2026)

※There is a transitional measure under which the previous tax rate (JPY 1,000) applies if you depart using eligible tickets issued on or before June 30, 2026.

※Infants under the age of 2 are exempt from the tax.

Payment Methods

As a general rule, air and sea carriers collect the International Tourist Tax from passengers departing Japan—typically by adding it to the ticket price—and remit it to the national government.
