

## Jigoku-mushi Dishes

By Public Transport

Dining

The dishes here are cooked using the steam of Onsen, a cooking method with a long history in Beppu. Seafood, vegetables, eggs and meat are extremely delicious when cooked in the mineral-rich Onsen steam. Jigoku-mushi steam cooking, which retains the nutrients and locks in the flavor of the raw ingredients of the food, is the ultimate method of eco-cooking, as it uses nothing but the power of nature. Experience the taste of dishes cooked the Jigoku-mushi way at the JigokuMushi Kobo located in Kannawa district.

## Seki Aji/Seki Saba

By Public Transport

Dining

Horse mackerel and Spanish mackerel caught by pole-and-line fishing along the Bungo Channel, which connects the waters of the Seto Inland Sea and the Pacific Ocean, are called "Seki Aji" and "Seki Saba." Due to their crunchy texture and delicious taste, Seki Aji and Seki Saba are regarded as high quality fish.

## Yunotsubo Street

By Public Transport

Shopping

Yunotsubo Street is located in the YufuinOnsen area at the foot of Mt. Yufu. Along this street bustling with tourists are souvenir shops that sell Oita specialties like Yuzukosho, a seasoning made from a fermented mix of citrus peel, chili pepper and salt. There are also restaurants lining the street that serve Toriten or tempura-style chicken and other gourmet delicacies of Yufuin.

## JigokuMeguri(Hell Tour)

By Public Transport

Main Attractions

Referred to as "hell" due to the gushing hot water and gas fumes caused by violent underground activity 250-300 meters below ground, the "JigokuMeguri" tour is a unique experience in Beppu where you can visit the eight "hells" of the city. Some of the "hells" include the "UmiJigoku" (sea hell) which is about 98°C hot and has a cool, cobalt blue color, and the bright red lake called "Chi-no-Ike Jigoku" (blood pond hell). The tour also features a lot of rare sights such as "TatsumakiJigoku," (water spout hell) in which geysers of about 20 meters periodically shoot out boiling hot water.

## Mt.Takasaka Wild Monkey Park

By Public Transport

Main Attractions

Mt. Takasaki, elevated 628 meters above ground level, is the leading natural zoo in Japan where wild Japanese macaque inhabiting the area can be observed closely. More than 1,000 monkeys live here, bringing about a breathtaking site when they suddenly appear from nowhere and gather during feeding time. Enjoy observing the macaque monkeys as the zoo attendants guide you around the park.

## Kinrin Lake

By Public Transport

Main Attractions

Lake Kinrin is found in nature-rich Yufuin, and is an intriguing lake because both fresh water and Onsen water gush from one area of the bottom of the lake. There are walking paths around the lake, which allow you to enjoy the views of fish and waterfowl through the surface of the clear lake water. Moreover, the lake is also known to be one of the best spots to view autumn leaves.

Location/View	Kawakami, Yufuin-cho, Yufu-city ,879-5102

## Yukemuri (Onsen Steam) Observatory

By Public Transport

Topics

Beppu's 'Yukemuri' ranked 2nd best after Mt. Fuji in the "Best sceneries in Japan to preserve for the 21st century" special report by NHK in March 2010. The night view from the observatory was also certified as a "Japanese Night View Heritage Site" in 2010. From the Yukemuri Observatory, enjoy a panoramic view of the steam from Kannawa Onsen, plus Mt. Tsurumi and Mt. Ogi, which changes color season to season.

## Oita:Japan's best Onsen hot spot

By Public Transport

Topics

Oita prefecture is blessed with an abundance of natural resources, the most notable of which are the Onsen produced by volcanic activity. These Onsen are renowned as having the greatest spring output volume in all of Japan. For people who love Onsen, people who would just like to refresh themselves, treat their skin, or just relax, Oita the "Onsen Capital" is waiting for you.
