

Gobo-men Noodle

By Public Transport

Dining

The Mito burdock which is grown in the Red Soil in the Karst zone is well-nourished and tasted as tender meat with good flavor. The noodles containing it with fried burdock tips topping is also popular food. In addition, there are the various products using the Mito burdock, such as the burdock croquette, Kinpira-bowl, including the burdock smoothie. The photograph at center is the noodles containing burdock.

Tokiwa Park

By Public Transport

Main Attractions

Tokiwa Park is a scenic multipurpose park that has been chosen as one of the top 100 urban parks in Japan, and as one of the top 100 sites for cherry blossom viewing in Japan. Tokiwa Zoo, located within the park, is unique in that it recreates the animals' habitats throughout the zoo, allowing them to display their natural behavior. The park also houses the Tokiwa Museum, a rare complex that showcases plants that change with the seasons, as well as the sculptures from the UBE Biennale, which has been recognized by the Guinness World Records® as the "longest-running outdoor sculpture exhibition."

Akiyoshidai Plateau(Geo Park)

By Public Transport

Main Attractions

Akiyoshidai was born eons ago as a coral reef in the far-off sea. Approximately 350 million years later, the result is a karst plateau – a limestone plateau containing sinkholes and caves, and one of the largest in Japan. Within the limestone can be seen fossils that indicate the long history of the Earth and Akiyoshidai, including fossils of coral and sea lilies. There are a number of trails through the natural expanse of Akiyoshidai where visitors enjoy walking and jogging.

Location/View	Akiyoshi, Shuho-cho, Mine City, Yamaguchi, 754-0511		
Access	55 min. via car from berth(48km)

Akiyoshido Cave (Geo Park)

By Public Transport

Main Attractions

Akiyoshido Cave is one of the largest limestone caves in Japan and is located 100m underneath Akiyoshidai plateau. Because the temperature inside the cave remains 17°C year-round, cool in the summer and warm in the winter, visitors can always explore the cave in comfort. The numerous and widely varied unusual natural formations appear to be frozen in time, stirring feelings of awe in everyone who visits.
