Numazu fish market "INO"

🥊 By Foot

¦⊙† Dining

In order to efficiently supply safe and reliable fishery products, a fish market with hygiene management measures (HACCP) are introduced, and a corridor for observing the auction, an observation deck, and a restaurant are built in.

Numazu Deepblue Aquarium

By Public Transport

Topics

Suruga Bay, the deepest bay in Japan, is 2,500 meters deep at its deepest point and has abundant marine resources. This exhibit introduces many deep-sea creatures that continue to live in this bay, as well as creatures that live in various environments around the world. The coelacanths, known as "living fossils," are displayed using a special freezing technique, providing a rare experience that cannot be found anywhere else.
