

Basashi

By Public Transport

Dining

This is a local specialty of Kumamoto. Generally, horse meat is eaten with toppings such as grated ginger, garlic, or chopped spring onions. Soy sauce is poured on top. The fat in the horse meat melts at a low temperature, so the marbled meat is also refreshing. when raw. Sushi made with horse meat is also popular.

Kumamoto Ramen

By Public Transport

Dining

Originally a variation of Kurume ramen, Kumamoto ramen has developed into the present, unique style over the years. The local's favorite noodles are distinguished by its rich pork-broth, the thick and firm noodles, and the seasonings of garlic chips and browned garlic oil. The noodles have made Kumamoto a recognized "ramen district" in the nation, arguably joining the ranks of Sapporo and Hakata. There are many Kumamoto-style ramen shops found throughout Japan; however, for an authentic Kumamoto version, you ought to try one at where they were born.

Kumamoto Castle

By Public Transport

Main Attractions

Kumamoto Castle, one of Japan's Three Great Castles, was built in 1607 by Kato Kiyomasa. The Castle keep Towers and Honmaru-goten Palace had to be completely rebuilt after being burned to the ground in 1877, a fate only Uto-yagura turret and a few other structures survived. However, in April 2016, both buildings sustained huge damage in the Kumamoto Earthquake. The castle was reopened to the public in phases starting in the fall of 2019. The main keep reopened to visitors in June 2021, after its restoration was completed. About 600 cherry trees bloom around late March.

Aso-Nakadake crater

By Public Transport

Main Attractions

The Aso caldera extends for 24 km from north to south and 18 km from east to west. Mt. Nakadake, which is located inside this caldera (one of the world's largest), is an enormous volcanic crater with a diameter of 600 m, a depth of 130 m, and a bumpy lava rock circumference of 4 km. From there, you can fully enjoy a view of Aso, which is surrounded by dynamic natural surroundings. During times of strong volcanic activity, tourists may not be allowed to go near the crater.

Suizenji Jojuen Park

By Public Transport

Main Attractions

Suizenji Jojuen Park is a traditional Japanese garden landscaped around a natural spring pond. The placement of the pond, trees, and hills were supposedly meant to represent parts of the 53 Stations of the Tokaido, a famous route that ran from Edo to Kyoto, and included in the landscaping is a miniature Mt. Fuji. Izumi Shrine is located on the north side of the park.
