

Tsunami Disaster Management Seminar

in Thailand

Objectives

The objective of this seminar is to promote the understanding of administrators on tsunami disaster management (especially tsunami disaster management map). Leading Japanese researchers in this field will present the need for the tsunami disaster management map, methods for preparing the tsunami disaster management map, and applications of the tsunami disaster management map. Inundation prediction methods, a key component of the tsunami disaster management map, will also be introduced in an easy-to-understand way.

The hotel damaged by 10m in height Tsunami

Date : March 12 (Wednesday), 2008

Venue : Kamolthip Ballroom, Siam City Hotel, Bangkok, Thailand

Organizers (Thailand)

- National Disaster Warning Center, Thailand
- Ministry of Transport, Thailand

Organizers (Japan)

- Port and Airport Research Institute (PARI), Japan

Access

Siam City Hotel is located just across the road from Phayathai BTS Skytrain Station (Exit #4).

Guest Speakers Profiles

Dr. Toshitaka KATADA

◇PERSONAL DATA

Present Position : Professor,
Department of Civil Engineering,
Gunma University
Field of Study : Disaster Information,
Evacuation Behavior and Disaster
Education

◇WORKING EXPERIENCE

- Professor: May 2005 to present
Department of Civil Engineering, Gunma Univ., Gunma, Japan
- Associate Professor: April 1995 to April 2005
Department of Civil Engineering, Gunma Univ., Gunma, Japan
- Visiting Associate Professor: April 2000 to present
Disaster Prevention Research Institute, Kyoto Univ., Kyoto, Japan
- Assistant Professor: April 1993 to March 1995
Faculty of Business Administration, Nagoya Univ. of Commerce and Business Administration, Aichi, Japan
- Research Associate: April 1991 to March 1993
Department of Civil Engineering, Gifu Univ., Gifu, Japan
- Researcher: April 1990 to March 1991
Tokai Research and Consulting, INC.(Research Division of Tokai Bank), Nagoya, Japan
- Researcher: April 1986 to March 1988
MITSUI Knowledge Industry, INC. Tokyo

Dr. Takashi TOMITA

◇PERSONAL DATA

Present Position : Research Director,
Port and Airport Research Institute
(PARI), Japan
Field of Study : Tsunami disaster
management, Tsunami numerical
simulation

◇WORKING EXPERIENCE

- Research Director: February 2005 to present
Tsunami Research Center, PARI, Japan
- Head of Storm Surge and Tsunami Division: April 2001 to January 2005
Martine Environment and Engineering Department, PARI, Japan
- Senior Research Engineer: April 1997 to March 2001
Hydraulic Engineering Division, Port and Harbour Research Institute, Japan
- Lecturer: September 1996 to March 1997
Department of Civil Engineering, Nagoya University
- Research Associate: April 1992 to August 1996
Department of Civil Engineering, Nagoya University

Mr. Tatsuyuki SHISHIDO

◇PERSONAL DATA

Present Position : Executive Director,
OCDI, Japan

◇WORKING EXPERIENCE

- Executive Director : May. 2006 to present
The Overseas Coastal Area Development Institute of Japan
- Executive Director : August 2004 to April 2006
Coastal Development Institute of Technology
- Deputy Director General , Kinki Regional Bureau :May 2003 to July 2004
Ministry of Land, Infrastructure, and Transport
- Director of Development Division , Ports and Harbors Bureau : July 2002 to April 2003
Ministry of Land, Infrastructure, and Transport

Mr. Waiyapot Worakanok

◇PERSONAL DATA

Present Position : Senior Geologist,
Chief of Geotechnics section,
Geotechnics Division, Department
of Mineral Resources, Thailand

◇WORKING EXPERIENCE

- BSc. (Geology) Chiangmai University, Chiangmai, Thailand.
- MAppSc. (Geology) University of New South Wales, Sydney, Australia.
