

Another run for families keen to ski together, the Kamoshika Trail is a moderate run with slow curves and a few bumps to keep things interesting. Appropriate for beginners looking to try something a little more challenging, Kamoshika provides just the right amount of trial while avoiding tribulation.

Adding to the excitement is the possibility of catching a glimpse of a *kamoshika*, from which the trail takes its name. Known as Japanese serow in English—and sometimes referred to as a goat antelope—the *kamoshika* is a protected species that you can find only in Japan. These curious-looking creatures live in the woods that border the run. The chance of catching a glimpse of one of these critters will have kids begging to hit the Kamoshika Trail again and again.

Level: Easy

Course length: 1,600 meters

Average slope degree: 6 degrees

Maximum slope degree: 8 degrees
