

## **Kannabe Highlands: Winter Season**

Kannabe Highlands is known for mild temperatures throughout the winter season as well as for all natural snow on its ski runs. Three major ski resorts cater to lovers of winter sports and are ideal for skiers and snowboarders at all levels.

With its gentle, rolling topography, UP Kannabe Ski Resort is well-suited to beginners and families with children. Across from UP Kannabe are the Oku Kannabe and Manba Ski Resorts, where more advanced trails are available, some with long slopes and some with moguls. Other highly enjoyable winter activities include guided snowshoeing treks, banana boat snow rafting, and sledding.

Another attraction of the Kannabe Highlands ski resorts is the chance to relax in the warm hospitality of intimate guest houses managed by local residents and learn a little bit more about this nature-filled region.
