

Toba's Islands

The islands of Toba Bay are some of the area's greatest charms, with many opportunities for hiking, water sports, and learning about traditional ways of life. Most are accessible by a regular daily ferry service from the Toba Marine Terminal.

For those interested in a guided tour of the highlights, a Toba Bay cruise loop begins at Toba Marine Terminal and takes visitors to several key spots just off the coast. Stops include Dolphin Island, which runs dolphin shows and a chairlift to an observation tower, and Pearl Island, where visitors can learn about pearl culturing and *ama* traditions. Check the port for the latest schedules.
