

*Aiyaru Hama* (Aiyaru Beach) and *Cho-no-michi* (Butterfly Road)

[PHOTOGRAPHS]

Butterflies

- A) Paper kite (*Idea leuconoe liukuensis*)
- B) Liuchiou blue spotted milkweed (*Radena similis similis*)
- C) Indian monarch (*Salatura genutia genutia*)
- D) Common mormon (*Papilio polytes polytes*)
- E) Great orange tip (*Hebomoia glaucippe liukuensis*)

Flowers bloom on Taketomi all year round, so it naturally attracts butterflies. Visitors are asked not to disturb butterflies, to observe them from a distance, and to never attempt to capture them.

Swimming is prohibited at *Aiyaru Hama* (Aiyaru Beach) because the strong currents are dangerous.
