

Help Protect Our National Park

These simple guidelines ensure we do not harm, destroy, or alter this beautiful natural setting. Please help us coexist with nature in a spirit of respect and preservation.

=====

Please do not remove anything from the park. No plants, no mushrooms, not a single stone. Let nature stay as it is, now and for the future.

Please do not feed the animals. It is natural to want to help and nurture, but this impairs their ability to survive independently. The food they need is already in place.

Please take out what you bring in. Littering causes widespread, long-lasting damage to the natural environment.

Fire in nature can be catastrophic. Please take extra care to prevent fires, especially when camping. Only light fires within approved boundaries.

Make sure you complete the registration form before you climb. This is for your safety. Rescue teams need to know where to find you if you require assistance. Form submission is mandatory.

Please stay on the trail. Do not step off the footpaths or wooden walkways. Yes, getting closer for a photograph may be tempting. But one step may destroy micro-worlds beneath your feet.

Please leave behind your gracious spirit, not graffiti. Property damage is a crime.

Pets belong at home. Please do not bring them.

Remember you are in a wild place. Accidents happen. Do not take risks.

The forest is a model of cooperation. In an emergency, please follow its example and help one another.
