

## **Takasago Seaside Park**

Takasago Seaside Park is a recreational zone where visitors can enjoy water activities, fishing, walking, and views of islands and the sea. The white-sand beach is lined with pine trees, a setting that has been named one of Japan's top 100 stretches of sandy beaches and pine trees.

The park offers toilet facilities, showers, and a barbecue rental service. For the latter, guests can rent space and equipment for a barbecue while bringing their own food and drinks, or they can choose a package that includes food, much of which is locally sourced. There is an all-you-can-eat meal set and a regular meal set, both of which have separate prices for adults and children.

The standard barbecue site includes a basic tent shelter, table, and chairs for up to six people. The slightly more expensive luxury site offers greater privacy, as well as a comfortable sofa with seating for eight people in a wooden gazebo. Both the standard and luxury sites allow views of the beach and sea.

The meal options require a reservation, which can be made through the website at <https://outdoor.mukoujima-park.com/bbq-2/>.
