

Experiences at the Kokaryu Real Ninjakan

The Kokaryu Real Ninjakan offers hands-on activities based on skills for which the ninja were renowned. *Shuriken* (throwing stars), among the most famous ninja tools, were easy to carry and made no noise when used. The ninja were also admired for their physical skills, including jumping, and visitors can try *shuriken* and ninja jumping experiences.

Visitors can take pictures at the AR (augmented reality) photo spots designed to make the ninja skills of *katon no jutsu* (fire release techniques) and *suiton no jutsu* (water escape techniques) come to life.

For additional fun, ninja costumes can be rented for a small fee at the Kokaryu Real Ninjakan. Rental bicycles are available for those wishing to explore further afield in Koka.
